

The shell of a tortoise is very complex

Facts about tortoises

Did you know that? Most tortoises are omnivores (Some are herbivores)

The shell on a tortoise is known to be a scute

If you find lots of tortoises packed together they're called a 'creep'

Tortoises
can live
almost
anywhere in
the world

Tortoises are ancient animals and can live for a very long time(longer than a human!)

Tortoises are awesome animals (I have a pet one at home) and even though they are really slow, they're amazing. My mum got mine before I was born and I have grown to love my tortoise.
