

English

Our first rich text of the year will be 'Puffin Peter' by Petr Horáček. We will be focusing on our spoken language skills by using role play and recounting events in chronological order. We will build upon our learning of sentence structure and punctuation and think about writing our own story.

Our next rich text this half term will be 'Stanley's Stick' by the John Hegley. We will continue to focus on our use of capital letters and full stops to write a sentence independently. Following this, we will begin to use conjunctions to join two clauses together.

Monster Phonics

Phonics: We will continue using Monster Phonics to help us to segment and blend words when we are reading. We will continue to focus on reading our high frequency words to help us with our fluency.

Understanding the World

History: We will be learning about the events of WW2 and thinking about why we have Remembrance Day. We will also be taking part on our Remembrance Day assembly.

RE: We will be learning about Diwali, the festival of light and how Hindus celebrate. As Christmas approaches, we will be learning about why Christians celebrate Christmas and what advent is. We will also be putting on our Nativity performance.

Maths

Number: We will be using the knowledge learnt in Autumn 1 about our number bonds to 10 to focus on addition and subtraction. This will involve using different methods to solve addition and subtraction number sentences, including using concrete objects and number lines.

All Aboard!

Year 1

Autumn Term 2 2022

Understanding Science and Technology

Science: We will start learning about the human body as a continuation of our animals, including humans and their habitats around the world. We will also consider how the seasons change and describe the weather associated with the change from autumn to winter.

DT: We will be learning about how to cut, shape and join a range of paper-materials in order to create a basket for our hot air balloon project.

Computing: Linking with our instruction writing in English, we are going to learn about what algorithms are and beginning to think about how to debug our algorithms.

Understanding Arts and Culture

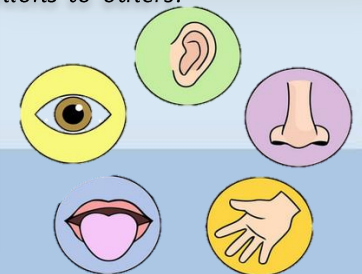

Art: We will be using the theme of Remembrance to create pieces of artwork including our poppies and wreaths. We will continue to develop our drawing with a particular focus on sketching. We will continue to focus on different modes of air transport.

Music and Performing Arts: We will be learning how to use our voices to sing expressively and develop our performance skills in our Nativity.

Understanding our Health and Well-Being

PE: We will be continuing with our gymnastics unit this half term, as well as sessions to develop our motor control and movement skills. We will learn how to put moves together to create a fluid sequence.

PSHE: We will be learning about 'celebrating differences' that make us special and unique and discussing our right to have different interests and opinions to others.

"Learn. Believe. Achieve."

Our School Values: Resilient, Persistent, Self-Motivated, Risk-Takers, Creative, Good Citizens, Entrepreneurial

*Dear Parents/Carers,
Welcome back and we hope you have had a restful half term break! We are very excited for the term ahead, including our wonderful nativity.*

Please find overleaf details about what your child will be learning in class over this half-term. Weekly spelling homework will continue to be set, and you will receive a Marvellous Me message to let you know when homework is available. We would encourage you to please spend some time at home each week practising the spellings we are working on in class, which will be tested weekly.

Please also continue to read together with your child every day as it really does make such an enormous difference to their ability to read with fluency, confidence and understanding; reading records should be in book bags daily.

*Thank you for your support,
Miss White, Miss Duffett and Miss Brown*
