

English

Writing: We will explore the texts 'Jungle Explorers' and 'Where the Forest Meets the Sea'. We will look at the structure of the texts and the grammar that has been used. We will then use this to inspire our own writing.

Reading: We will read the text 'The Problem With Plastic' to enhance our reading and comprehension skills in our Guided Reading sessions.

Spelling: We will continue to work on our Year 4 spelling list which will include looking at word families based on common words.

Maths

We will continue our learning about fractions, including how to subtract fractions from whole and mixed numbers. We will then move on to learning about decimals, where we will be working with tenths before dividing one- and two- digit numbers by 10.

Understanding the World

History: We will be learning about crime and punishment through the ages. We are going to revisit key periods of history and learn about the ways in which criminals were punished.

RE: We will be discovering the key beliefs held by Muslims. We will look at the main features of a mosque and explore the main festivals.

Spanish: We will be learning how to talk about the resources in our classroom.

Understanding Science and Technology

Science: Sparks will fly with our electricity project this term where we create circuits and investigate materials that are conductors or insulators.

DT: We will be making links to our science topic by creating our own light boxes during our electricity topic.

Computing: After finishing our programming unit, we will be starting our photo editing work. We will be exploring adding effects to photos and how to identify 'fake' images.

Understanding our Health and Well-Being

PE: We will be partaking in gymnastics and netball lessons his half term. We will be focusing on different ways to pass the netball and move up the court, before completing a sequence using apparatus in gymnastics.

PSHCE: We will be learning about 'Relationships' and what a positive relationship looks like.

Music: In music, we will be composing for percussion where children will use notation to compose music for an instrument of their choice.

Dear Parents/Carers,

Welcome to the Summer term. We hope that everyone had a relaxing Easter break and that everyone is ready for our busy, busy term. Please find overleaf details about what your child will be learning in class over this half-term. Home Learning will be placed in homework books weekly, along with spellings. We would encourage you to please spend some time at home each week practising the spellings and times tables we are working on in class. Please also read together with your child every day as it really does make such an enormous difference to their ability to read with fluency, confidence and understanding; reading records should be in book bags daily.

Thank you for your continued support,

Mr Brown, Miss Fisher and Mr Griffin.
